DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “an electrical cord” of claims 2 and 9 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1 and 8 are objected to because of the following informalities:

Claim 1, there is lack of antecedent basis for “the extendable post” in line 9 and “the light bulb” in line 16 (note: claim 6 further recites a light bulb).

Claim 8, there is lack of antecedent basis for “the light bulb” in line 13 (note: claim 14 further recites a light bulb).

Appropriate correction is required.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter of claims 1-16:

Claims 1 and 8, a floor lamp comprises, in combination, a dimmer housing attached to proximal ends of first, second and third supporting posts.

Claims 2-7 are dependent on claim 1.

Claims 9-16 are dependent on claim 8.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Doong [US 5,165,785] discloses a floor lamp with one supporting post and a dimmer housing located inside the supporting post. Turner et al. [US 5,863,111] discloses a floor lamp with one supporting post and a dimmer switch. Swanson [US 5,620,247] and Lo [US 5,800,054] disclose a floor lamp with three supporting post but

Art Unit: 2875

without a dimmer switch. However, none of the art above discloses or suggests the discussed allowable subject matter.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Drawings and Claim Objections as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Design Patents of the same inventor, Eusterbrock, [US D474,557 and US D492,444] show a floor lamp structure.
